Avg Revenue/Employee (Rs Lakh)

Key Insights : Revenue Growth is led by tube investments , Uno Minda , Lumax and Motherson Sumi Wiring. The profit growth is not evenly distributed with Lumax and Mahindra CIE performing especially well. The scatter plot also shows that spending more on employees does not guarantee higher revenue per employee, so productivity may depend on things like scale, automation, and how efficiently the workforce is used

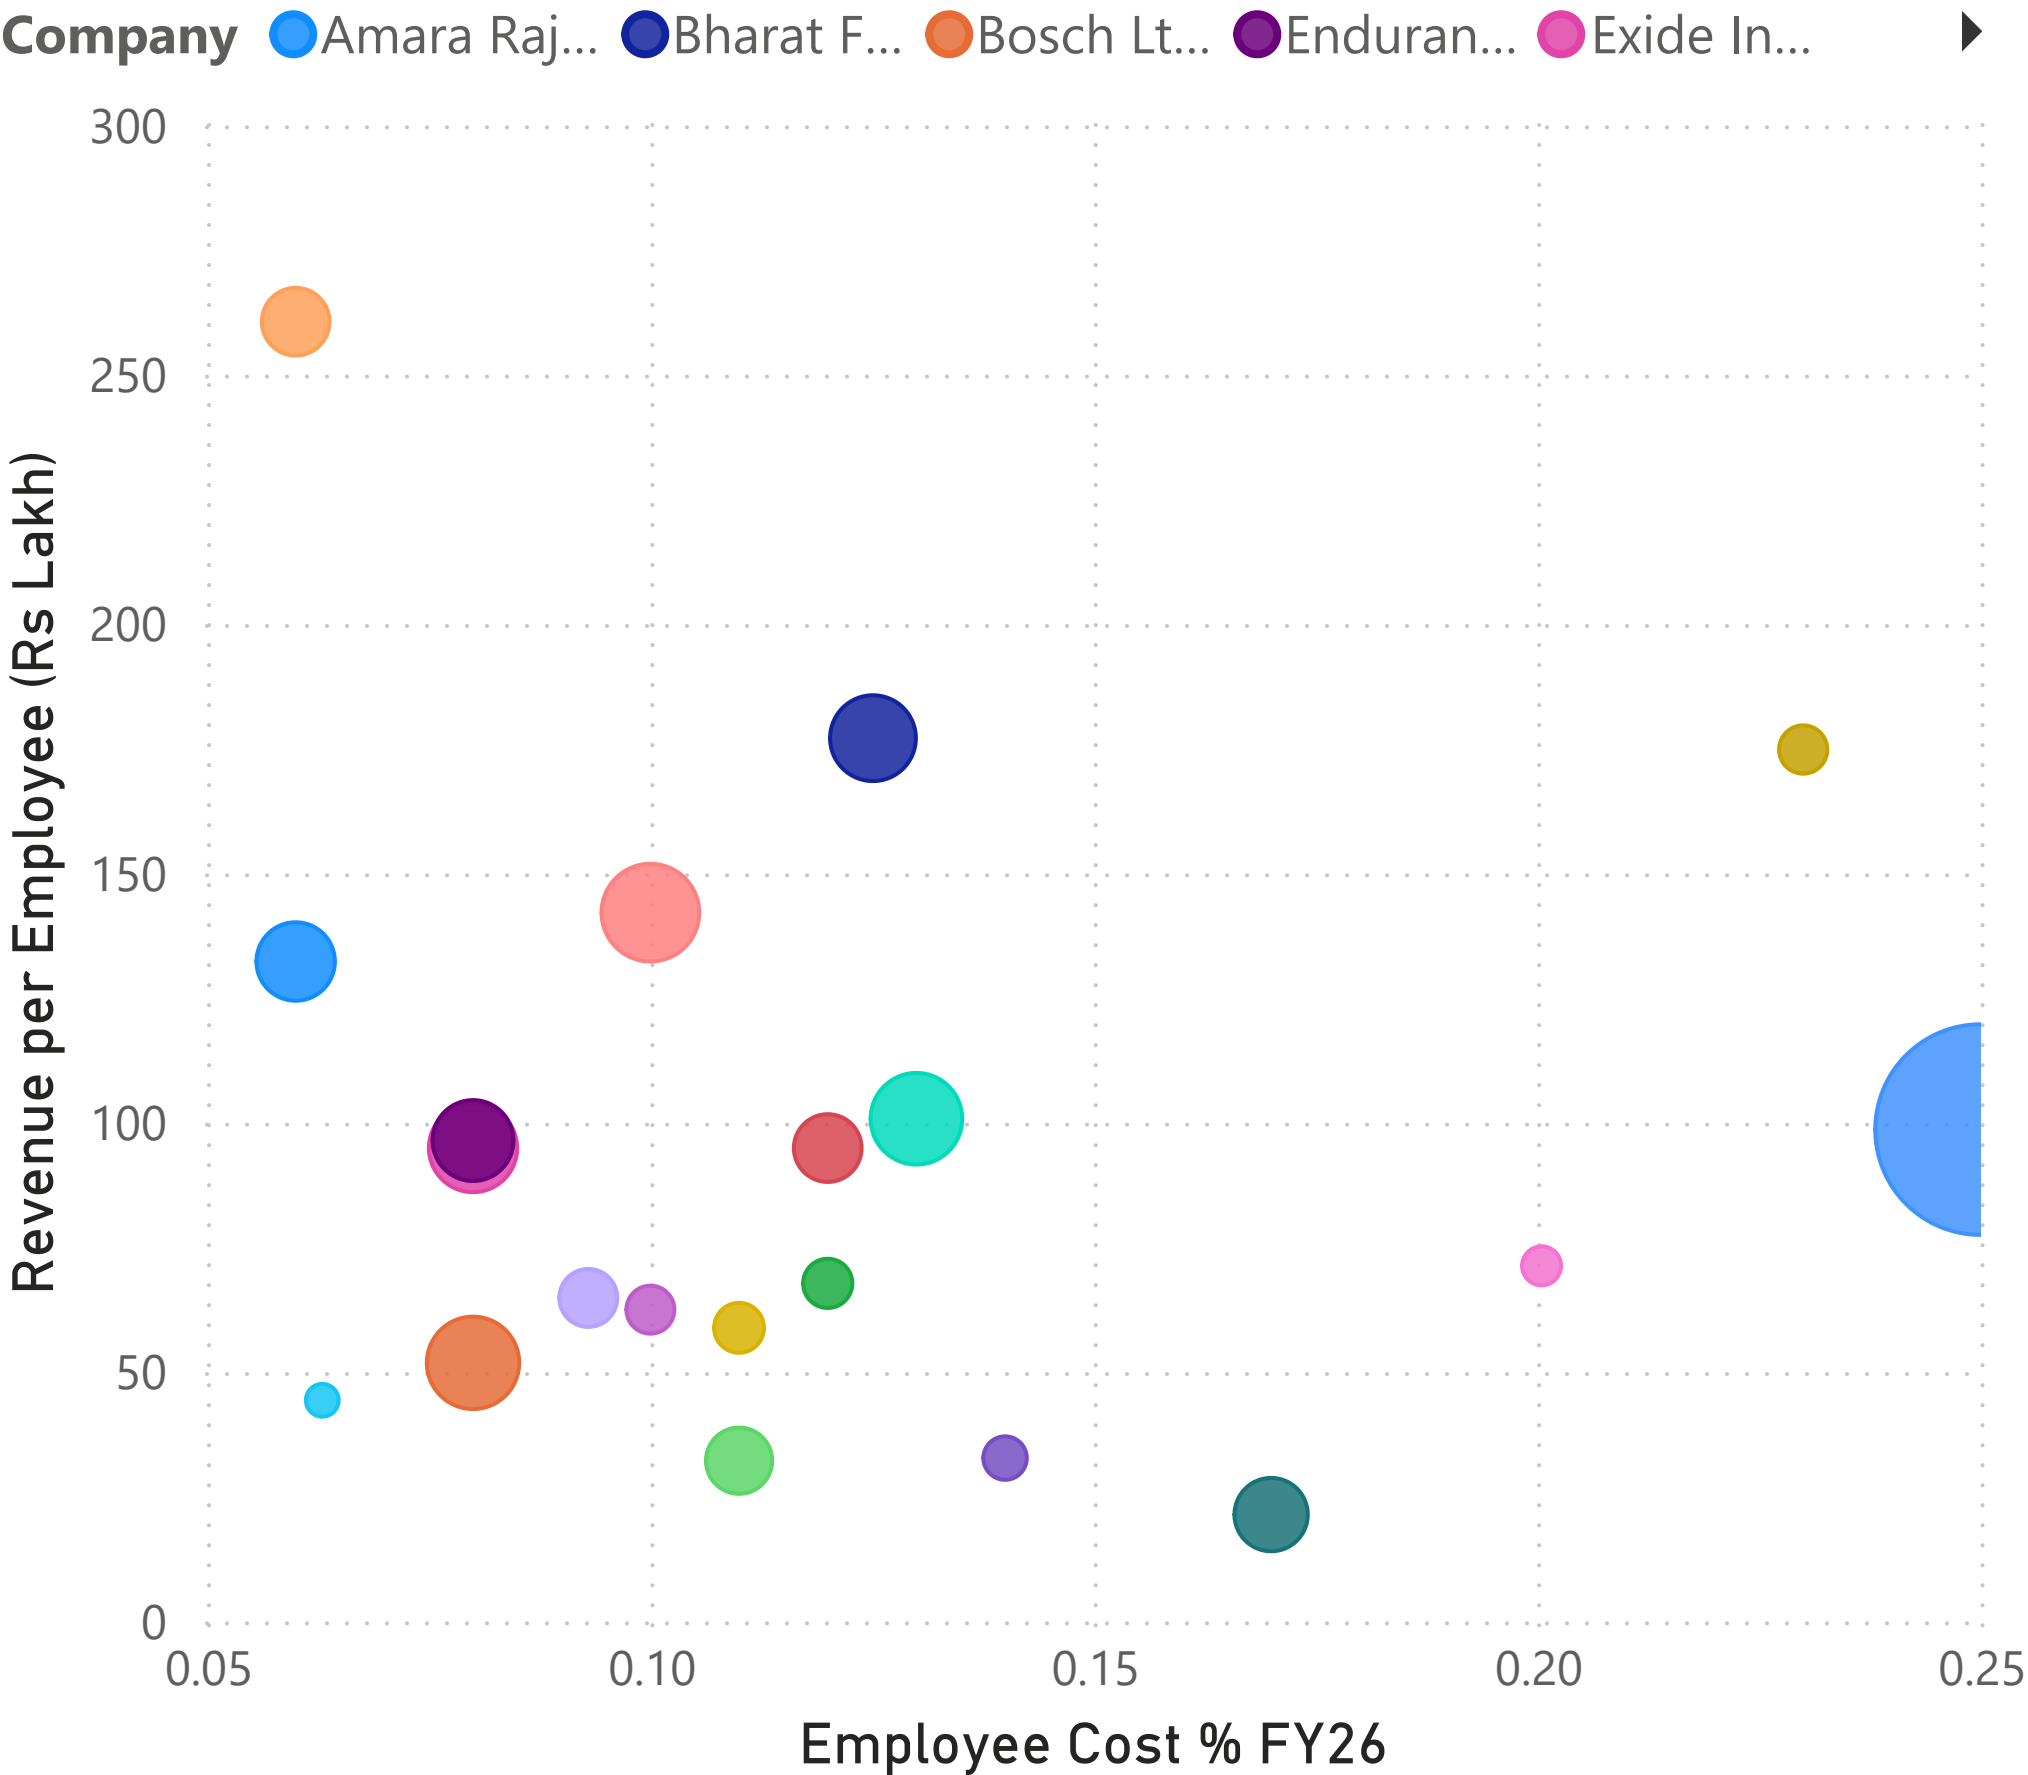

Revenue CAGR by Company

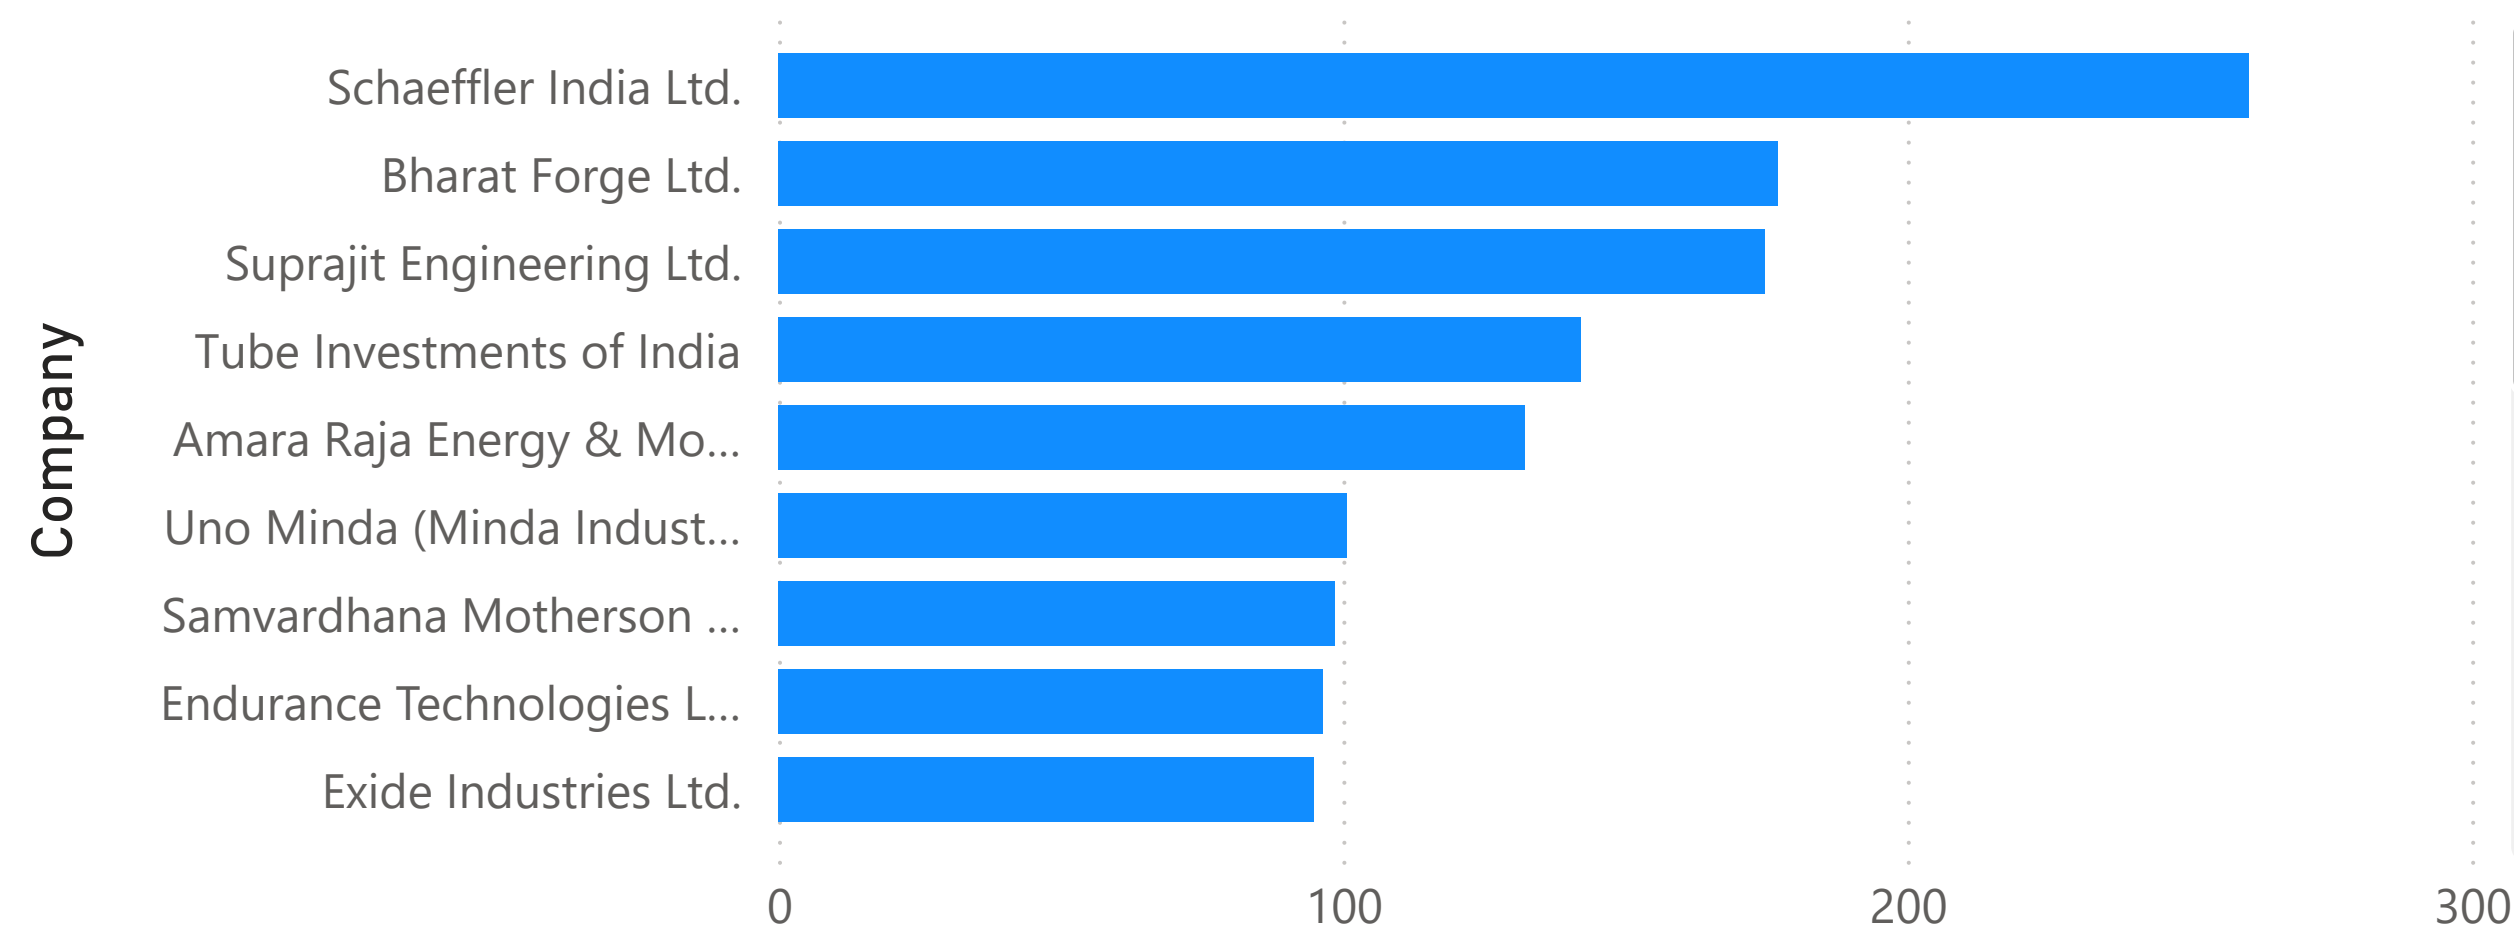

Profit CAGR by Company

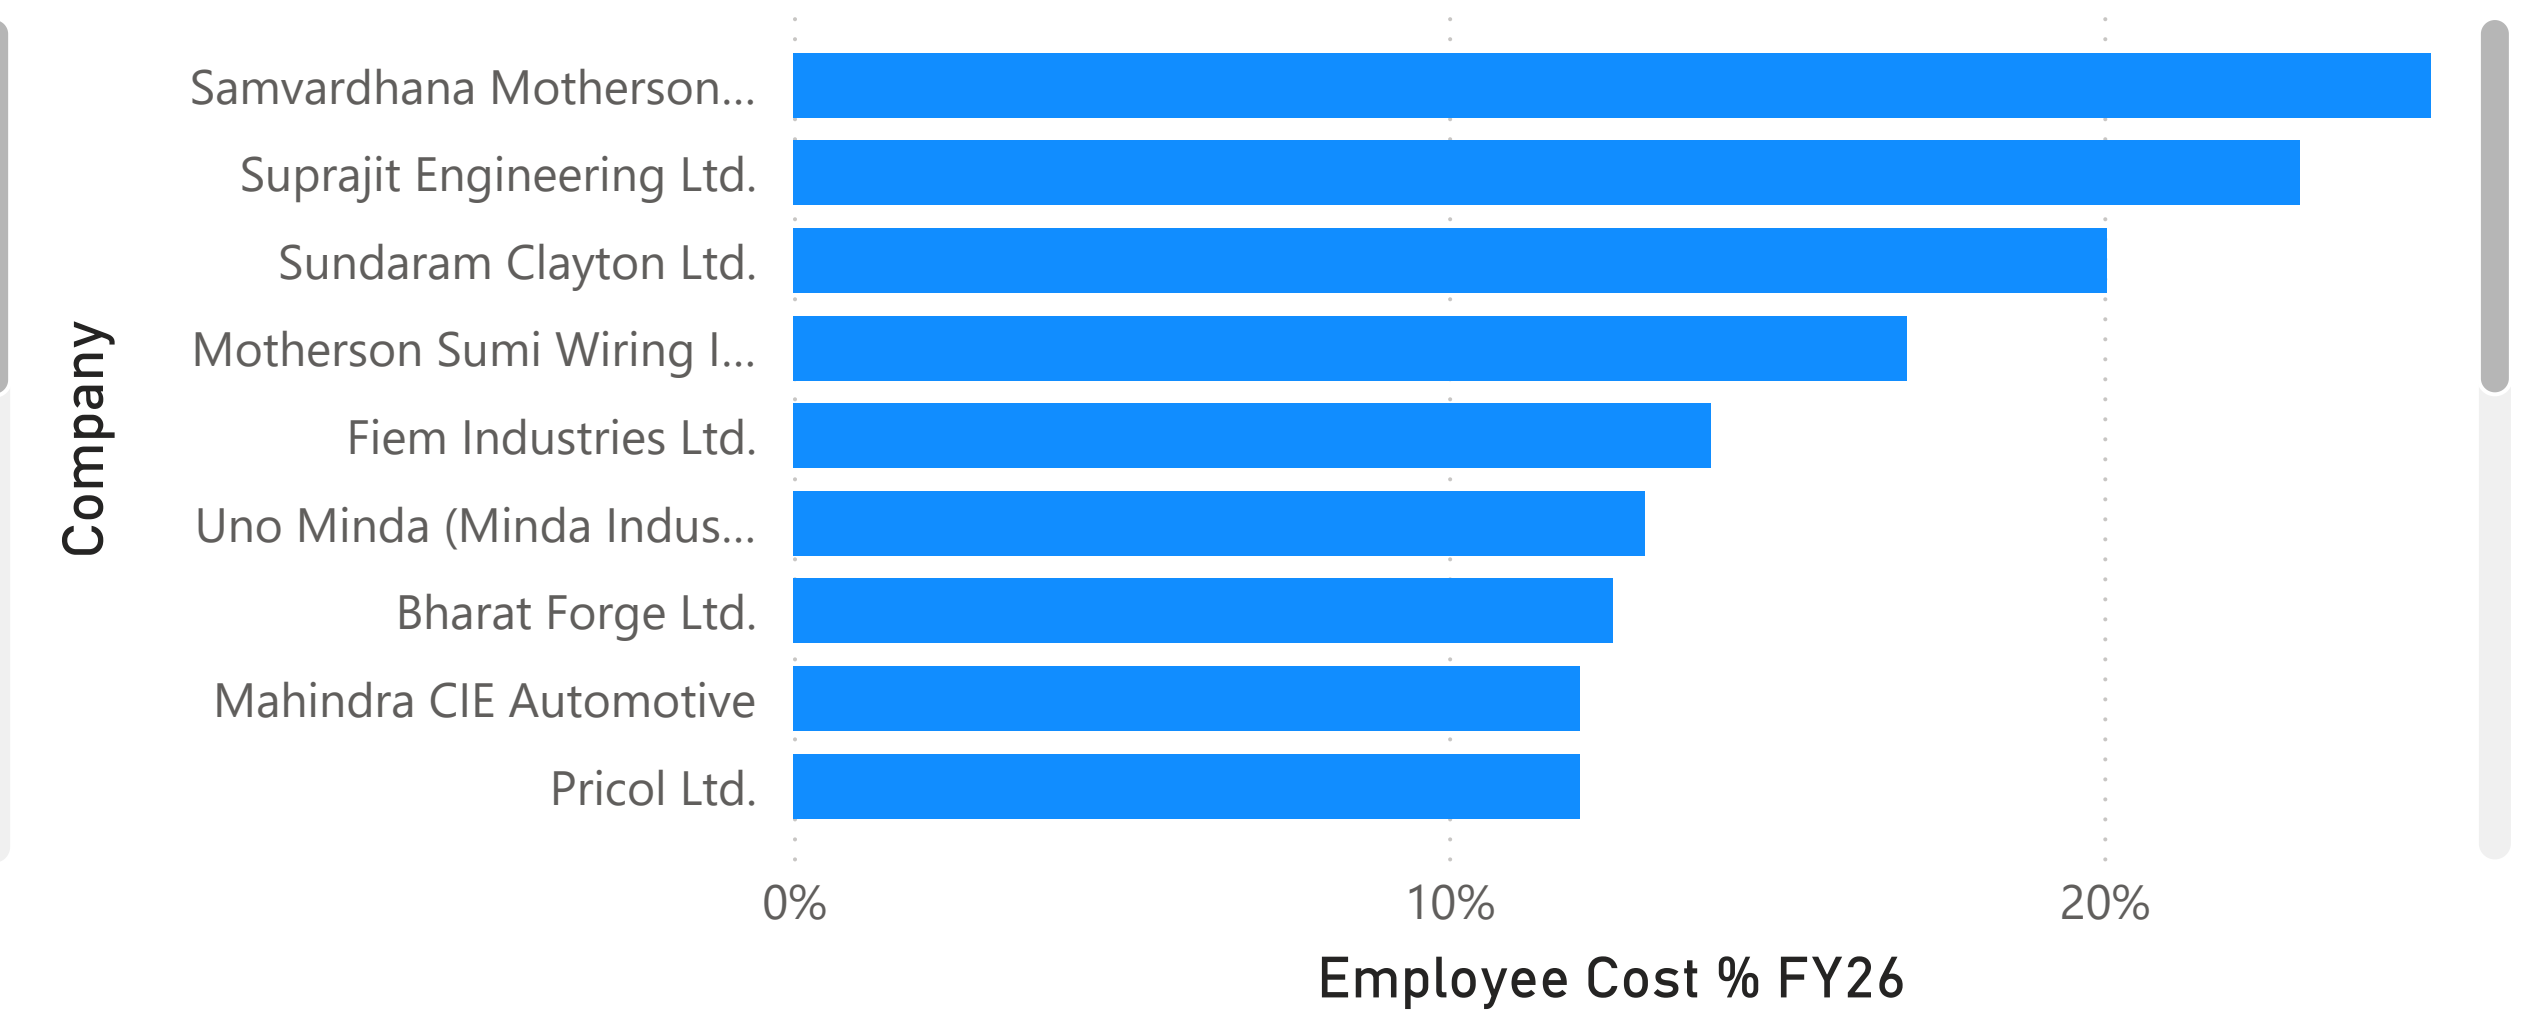

Employee Cost vs Revenue Productivity

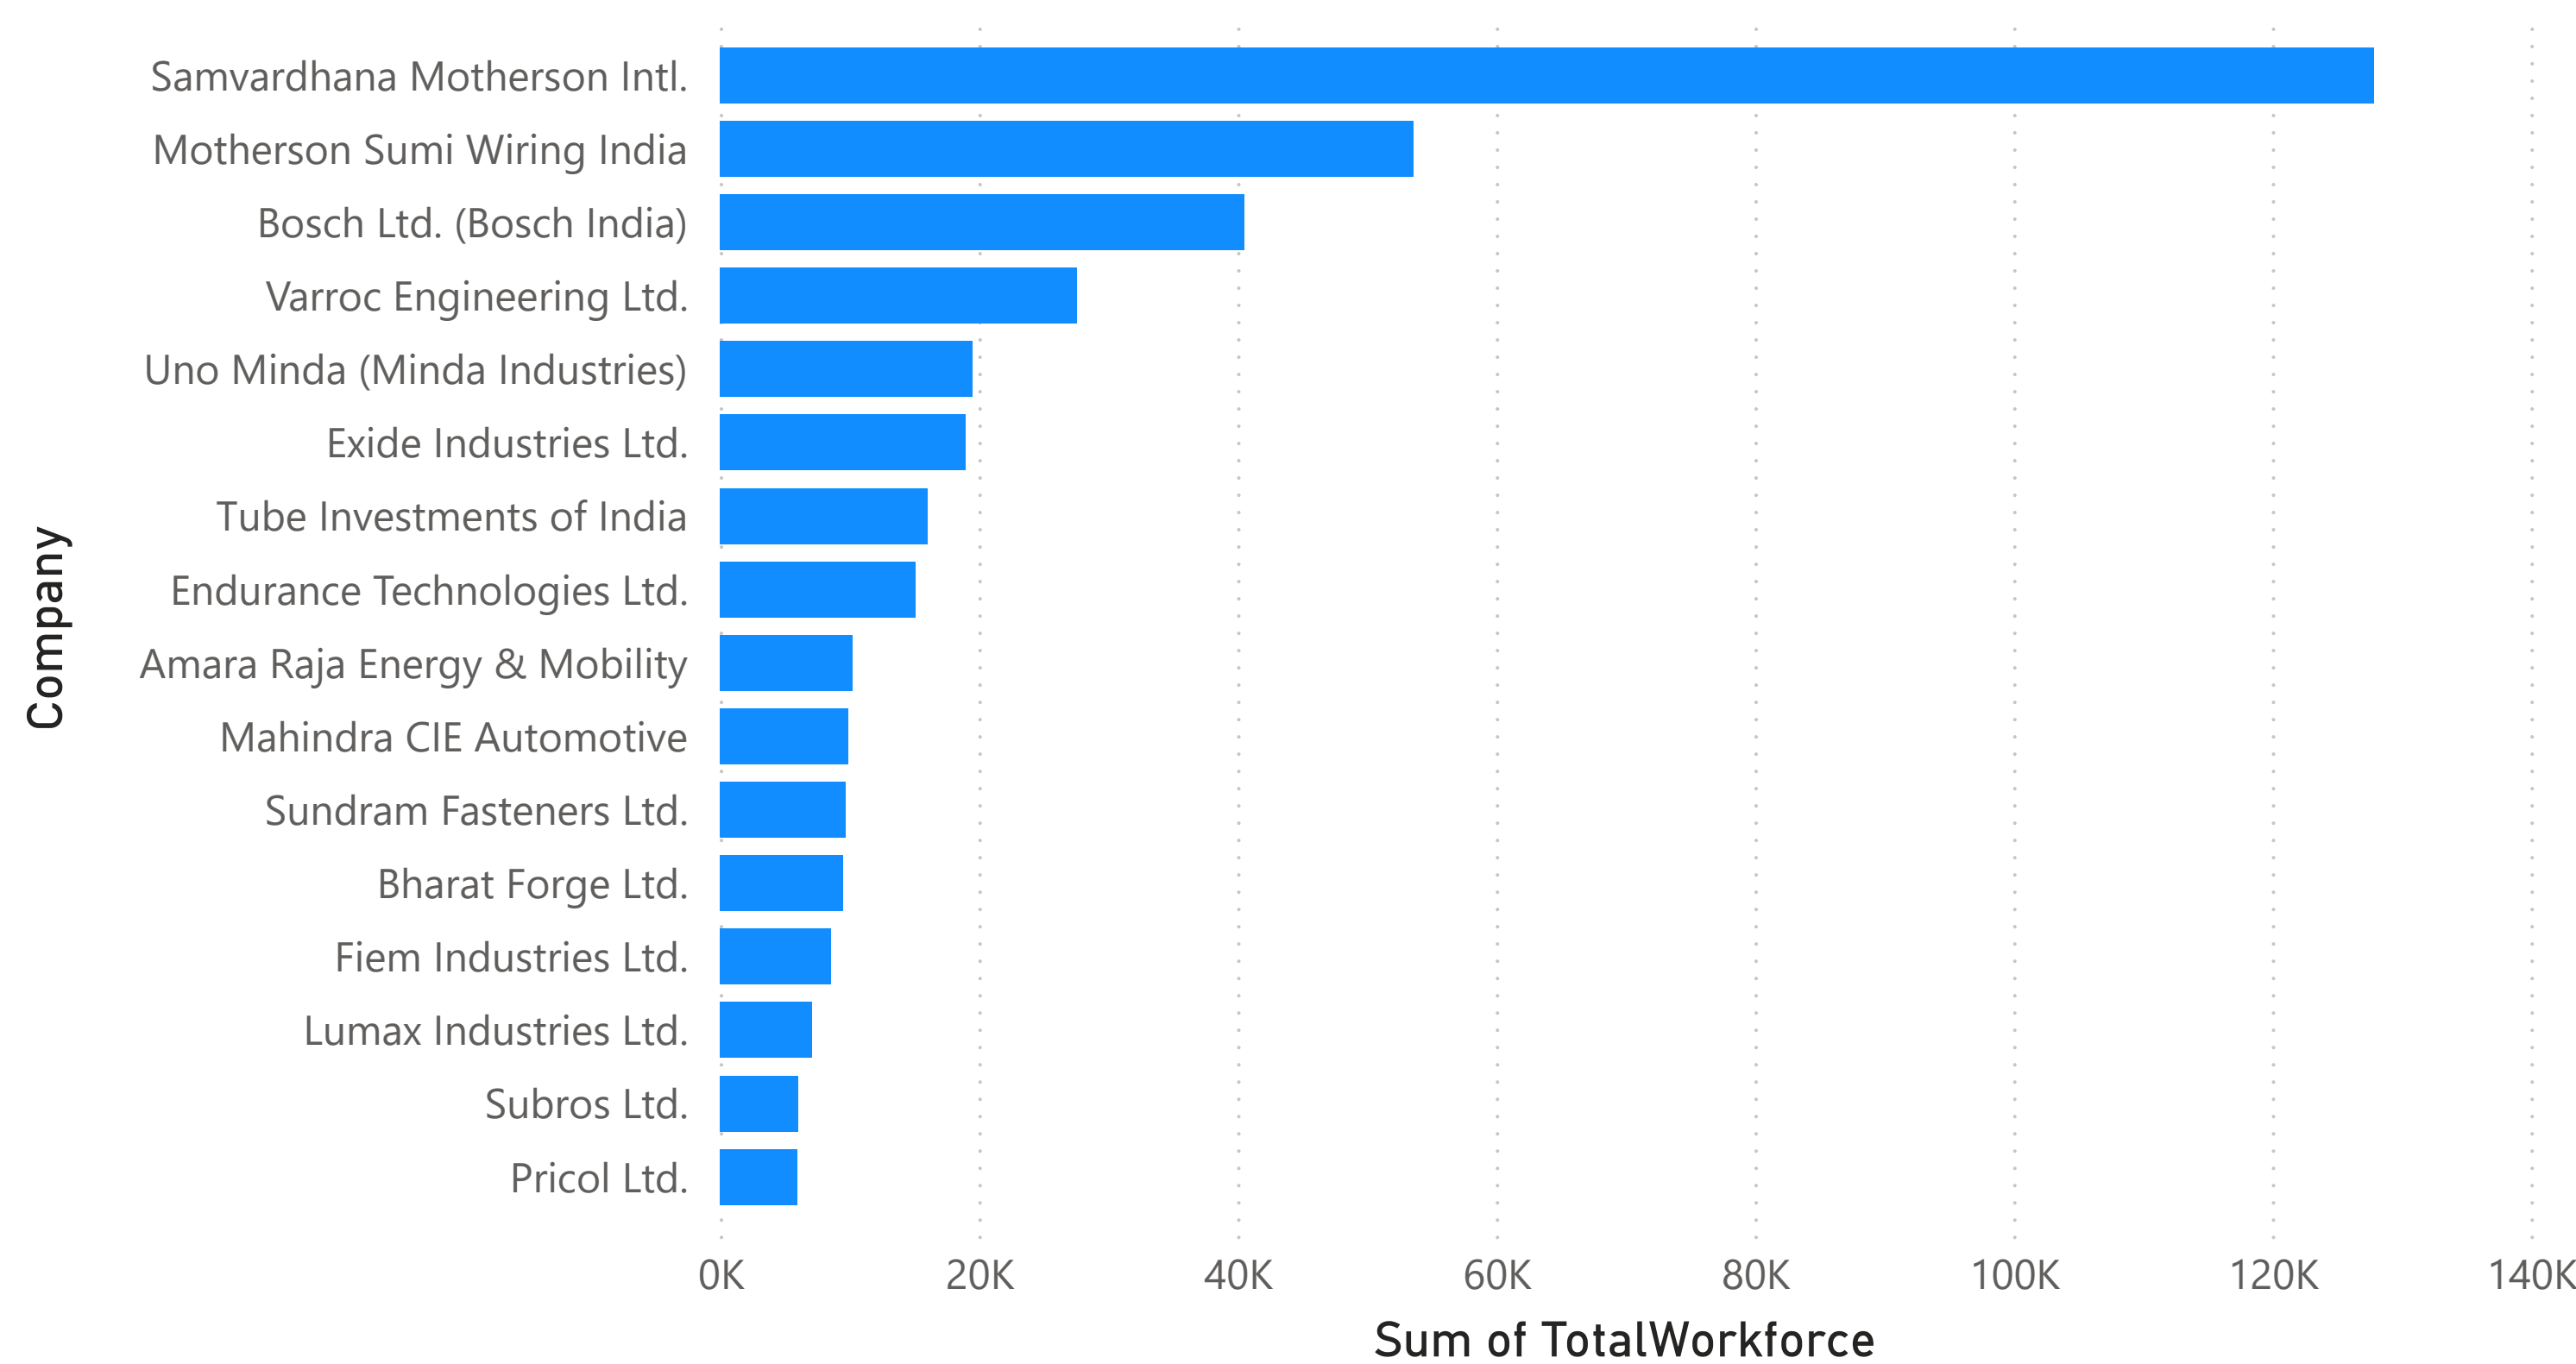

Revenue per Employee (Rs Lakh) by Company

Employee Cost % of Revenue by Company

Total Workforce by Company

Key Insights : Schaeffler India, Bharat Forge and Suprajit Engineering show the highest revenue per employee , suggesting stronger workforce productivity and a more value-added operating model. Samvardhana Motherson and Motherson Sumi Wiring have the largest workforce base which reflects scale and labour intensity. Companies with higher employee cost as a share of revenue may face greater pressure to improve productivity ,manage attrition. And build future-ready technical skills.
